Dr. Philip Miller

SPECIALTY: Facial procedures such as face-lifts; brow lifts; cheek, chin, and jaw implants; eyelid surgery; and noninvasive Botox and facial fillers that enhance your look but don't strip away your unique features

SIGNATURE PROCEDURE:

Rhinoplasty. Miller sculpts a natural-looking nose that enhances the more "sensual" parts of the face, namely the eyes, lips and cheeks.

NOTABLE CLIENTS: Let's just say there's a discreet backdoor entrance to shield patients from the paparazzi. If you're famous enough to be followed, you might be a patient here.

HAMPTONS FAVORITES: "I was born in Boston, so I like Sag Harbor because it reminds me of family vacations to Cape Cod, Nantucket and Martha's Vineyard. My favorite restaurants are Della Femina in East Hampton, for its chocolate soufflé, and Savanna's, where you can sit outside and enjoy nature."
